PROFESSIONAL SUMMARY

Aspiring Software Engineer with a focus on developing practical technology solutions. Skilled in HTML, CSS, C++, Java, Python, Unity 2D, and MySQL, with a strong foundation in IT support. Combines analytical and problem-solving skills to tackle challenges, while committed to collaborative teamwork and continuous improvement.

EXPERIENCE

IT Expert

Mar 2026 - Jun 2026

MyHanKukTV Sdn.Bhd. • Cyberjaya, Selangor, Malaysia

- Delivered expert technical support, resolving complex issues to reduce downtime and enhance user satisfaction.
- Implemented robust data backup and recovery strategies, mitigating risks of data loss.
- Conducted regular system audits to enhance IT infrastructure performance and reliability.
- Documented IT procedures and system configurations, ensuring consistency and knowledge sharing.
- Managed IT inventory, tracking hardware and software assets to ensure compliance and optimise budget utilisation.
- Enhanced social media strategy to increase engagement and brand visibility.

Lane Marshal

Dec 2025 - May 2026

U-Bowl @ Alamanda • Alamanda, Putrajaya, Malaysia

- Managed bowling lanes and seating to optimise customer flow and enhance overall experience.
- Monitored lane conditions and resolved technical or customer issues to maintain high service standards.
- Assisted customers with lane setup and gameplay to facilitate enjoyable experiences.
- Coordinated with team members using walkie-talkies for efficient lane assignments.

Retail Worker

Jun 2024 - Dec 2024

Dr. Cardin Signatures • IOI City Mall, Putrajaya, Malaysia

- Guided customers in selecting products, providing tailored recommendations that improved their overall shopping experience.
- Collaborated with team members to meet store targets, contributing to the achievement of daily operational goals.
- Organised and replenished product displays, ensuring an attractive and orderly store environment that encouraged customer engagement.

Technician Computer

Jun 2021 - Mar 2023

Sigma Rectrix Systems (M) Sdn. Bhd. • Cyberjaya, Selangor, Malaysia

- Installed and configured network hardware, including routers, switches, and firewalls, to support company operations.
- Managed firewall configurations and updates to prevent unauthorised access and maintain network integrity.
- Resolved connectivity issues, restoring internet and network access swiftly.
- Troubleshoot computers, data transmission equipment and peripheral devices.
- Configured computer hardware to meet specific operational requirements.
- Established testing equipment to verify functionality and performance.

PROJECTS

SeedOfLife

Mar 2025 - Jan 2026

Contributed to building and enhancing an AI-powered mobile app for urban plant care in Malaysia by managing documentation, designing system and chat flows, conducting application testing, developing Firebase database integration, and improving UI/UX design, along with integrating PlantNet and Plant.id APIs for tropical plant identification, climate-adaptive care scheduling, community forums, and GPS nursery locator features using Flutter and Firebase.

Showtime Manager System

Mar 2026 - Jun 2026

Java desktop application for managing video content and creating broadcast schedules. Media administrators can organize content by type (Dramas, K-pop, Movies), structure it by series and seasons, and schedule episodes on a 24-hour timeline using drag-and-drop. The Gantt-style timeline features color-coded, duration-scaled blocks for easy visualization. Users upload videos with metadata, drag them onto the schedule grid, and the system automatically reflows the day to eliminate gaps or overlaps. With week navigation, real-time search, and detailed info panels, Showtime Manager streamlines the entire broadcast planning workflow.
